61? No way! You look great and you remember correctly.

I forwarded your email to Grace.

Hi Julie,

I spoke with Mark Pocsik on Friday 5/27/11. He is one of the UMass Construction Engineers for the Vivarium project. He said there are no plans for a hood in the main lab. I thought the original plans called for a 5 foot hood in the main lab as well as the 4 foot hood that was installed in the renovated area. I lost all by records with a computer crash a year ago so I am relying on memory which at 61 is not the greatest.
